

## Honing and polishing

# K 400

## Polishing cream for granites and porcelain stoneware

LINEA  
PROFESSIONALE

**K 400** is a water based polishing cream. Its special formulation has been specially studied for the maintenance of granite surfaces and siliceous materials in general, undergoing high traffic and to re-polish worn surfaces. Maintenance allows to reestablish a good brightness capacity and to get a better resistance against intense traffic.

Periodic use avoids forming deep abrasions on the surface. It does not change the features of material and allows saving much time for the maintenance.

### CHARACTERISTICS AND BENEFITS

- ✓ High sheen degree
- ✓ Very hard
- ✓ Fast result
- ✓ Does not create overlapping defects

### USES

Indoors and outdoors. Polished or finely honed granites, and polished or lappato (glazed-polished) porcelain stoneware

### COVERAGE

40/50 m<sup>2</sup>/kg

### APPLICATION EQUIPMENT

Single disc machine, which has a power of 2 HP (2.2 HP is preferable); Manual rotary brush.

Faber Chimica is able to supply the WARRIOR Single disc machine, which has a power of 2.2 HP, and is optimised for the correct application of any product.

### APPLICATION

Test on a small area before proceeding, so to ensure product suitability and final result.

Proceed by small surface portions of about 2 sq.mt. each and shake well before use. Apply the product to the surface and work with concentric movements using a single disc machine and white pad. Work until the product will be dry, adding if needed, a few water drops.

Go on up to reach the highest brightness degree. Repeat application, should the brightness degree not be enough. Rinse the surface well with water and vacuum up the superficial residues.

### -Polishing

Apply 10/20 gr of product per square meter to a honed or very opacified material and work until dry.

PROFESSIONALE

## EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

## SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

## PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Cream
Color:	White
Odour	Odourless
pH:	3,5 ± 0,5

## STORAGE

Keep the container tightly closed and store in a cool, dry place.

## SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

## PACKAGING

- 2 kg containers – 8 per box
- 5 kg containers – 4 per box

## HAZARD IDENTIFICATION

H302	Harmful if swallowed
H336	May cause drowsiness or dizziness
H373	May cause damage to organs through prolonged or repeated exposure.
P260	Do not breathe dust / fume / gas / mist / vapors / spray.
P261	Avoid breathing dust/ fume/gas/mist /vapors/ spray.
P264	Wash thoroughly after handling.
