### Finishing Treatments

## TOP CARE

### Maintenance cream for bathroom and kitchen tops made of natural stone, quartz, or agglomerates

**TOP CARE** is a product formulated for the maintenance of kitchen tops, bathroom tops, and tables made of marble, granite, and marble-resin or silicon-resin agglomerates.

When used constantly **TOP CARE** prevents the formation of stains caused by lime deposits from water.

#### BENEFITS

- ✓ Enhances the shine of the material
- ✓ Makes daily maintenance easier
- ✓ It enhances the surface water-repellency
- ✓ It reduces limescale build-ups

#### USES

This product can be used on indoor surfaces.  
Suitable for Marble, Granite, Quartz, Marble and Quartz agglomerates

#### COVERAGE

15/20 m<sup>2</sup>/l

#### APPLICATION EQUIPMENT

Cloth, Sponge

#### APPLICATION STEPS

##### Surface preparation

- Make sure to thoroughly clean the surface removing all dirt and dust from the surface
- Do not apply **TOP CARE** on wet surfaces.
- Do not apply **TOP CARE** on heated surfaces.
- All surfaces close by that are not to be treated must be protected.

##### Application

*Before applying the product is necessary to take a preliminary test on an unexposed area or unused piece of material to check the product's suitability.*

- Shake well before use.
- The product is ready to use. Apply an even, abundant coat of product to a clean, dry surface with the preferred tool, making sure to create an even layer to cover the whole surface being treated.
- Wait for the solvent in the product to evaporate (around 5 minutes) and then polish the surface in circular motions, using a white pad, cloth, or sponge until the surface is completely dry.

##### Drying Time

After the product has dried, wait for it to cure, which will take at least 1 hour

##### Resume Surface Use

About 2-3 hours after the product has been applied, check the surface to ensure that is evenly coated with the product. After that surface use can be resumed.

## PROFESSIONAL LINE

INSTRUCTIONS  
AND GUIDELINES

- Do not apply the product on a dirty surface
- Do not apply the product on wet surfaces
- Do not apply on the floor
- Do not apply the product on heated surfaces
- Do not mix the product with other chemicals
- Surfaces near by not to be treated must be protected
- Before applying the product is necessary to take a preliminary test in order to evaluate the product's suitability for use.

EQUIPMENT  
CLEANING

At the end of the application, the equipment used can be washed using water.

## PHYSICAL-TECHNICAL DATA

Formula	Thick liquid
Color	Ecru
Odor	Scented
pH	8.4 ± 0.5
Flash Point (ASTM D 56)	990 ± 20 g/l

## STORAGE

Keep the container tightly closed and store in a cool, dry place.

## SHELF LIFE

12 months in the original, sealed packaging, stored in a cool, dry place.

## PACKAGING

250 ml bottles – 12 bottles per box

## SAFETY

When applying the product, always use suitable personal protective equipment and follow the product safety data sheet instructions with care.

Rev.3.0 – 17/10/2022

This technical data sheet supersedes all previous versions. Always refer to the latest version of the data sheet, available on [www.fabersurfacecare.com](http://www.fabersurfacecare.com) site. Faber Chimica reserves the right to update and/or modify the data and information contained in the datasheet.

The information in this data sheet is based on our wide experience in technical and operational research. In any case, you should always make a preliminary test to verify the suitability of the product for the intended use and the type of material on which it will be applied. The information and the suggestions can't be construed as a commitment or result in our responsibility as the conditions and method of use of the product cannot be controlled by us.
