M4-SHINE

Liquid Crystallizer for the Shine Maintenance of Marble, Travertine, and Limestone

M4-SHINE is a ready-to-use liquid crystallizer for marble, travertine, and limestone. Through crystallization, you can restore the shine of a surface that got dull over time. **M4-SHINE** can also be used on surfaces that have been previously crystallized with other products. It can also be used as a final step after grinding. **M4-SHINE** doesn't increase the slipperiness of a surface.

BENEFITS

- ✓ Quick and easy to use
- ✓ Ready to use
- ✓ Water-based
- ✓ It won't increase the slipperiness of the surface

USES

Suitable for indoor application.
Suitable for Marble, Travertine, Limestone, and marble agglomerates.

COVERAGE

8/15 m²/l

APPLICATION EQUIPMENT

Product application:
 1.5 HP Single disk machine equipped with a steel-wool pad

APPLICATION STEPS

Surface Preparation

- Thoroughly clean the surface making sure to remove all dust and dirt
- Do not apply **M4-SHINE** on wet or humid surfaces
- We recommend applying the product in sections of 1 m² at a time
- Do not apply the product on heated surfaces
- Protect all areas, not to be treated

Application

Before applying the product is necessary to take a preliminary test on an unexposed area or unused piece of material to check the product's suitability.

- Shake the product well and then spray it on the surface
- Start Spray-buff the product on the surface using a single disk machine (150/200 rpm) equipped with a steel-wool pad.
- Work the product in circular motions until dry.
- If the surface is particularly worn out we recommend doing 3 applications depending on the desired result.
- Once the job is completed remove all residues with a dry cloth.

Resume surface use

Once the residues have been removed Resume surface use.

INSTRUCTIONS AND GUIDELINES

- Do not apply on wet or humid or heated surfaces
- Apply the product to surfaces with a temperature of between +5 and +40°C
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Protect all areas not to be treated.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.
